

Let's talk about  
your super

# Welcome to

## We're your employers preferred choice

Your employer has partnered with us to be their default fund. Why did they choose us? We're an established Industry SuperFund with a proven record of competitive fees, strong returns, exceptional service, and a super support team with a real care for you.

CareSuper members can choose from 11 different investment options, including a Sustainable Balanced option. The Sustainable Balanced option's external investment managers, within the Australian and overseas listed shares asset classes, aim to exclude direct investments in certain listed companies (through negative screening), and also consider positive environmental and social themes when selecting certain investments. A Direct Investment option is also available for those wanting to be more hands-on with their investments.

Starting a new job is exciting, but don't forget your super is important too. It's never too early or too late to think about your super. At CareSuper, we're here to help make that easier.

## You choose where your super is paid

Unless you choose otherwise, your super account will follow you when you move from job to job. If you'd like to join CareSuper, you can complete our *Superannuation choice form* available at [caresuper.com.au/choiceform](https://caresuper.com.au/choiceform) and hand it back to your employer. Before joining, you should read the *Product disclosure statement* (Member PDS) and *Target market determination* (Super TMD) available at [caresuper.com.au/pds](https://caresuper.com.au/pds).

## We care about your future

Super can be complex, that's why your dedicated CareSuper representative – who knows the ins and outs of super – is available to talk about your options.

We also provide:

- one-on-one virtual or on-site meetings
- affordable and flexible tailored insurance to suit your needs
- educational tools and events, available online and on-site
- referrals to our advice teams
- mental, physical and social health wellbeing support
