## Who is GU Health?

GU Health specialises in corporate health insurance. We understand the importance of health and security. That's why we're focused solely on providing innovative tailored health insurance products and services to businesses and communities, offering high-quality health covers that enable our members to live well.

Associated unplanned treatment means unplanned treatment provided during an episode of covered planned surgery that is, in the view of the medical practitioner providing the unplanned treatment, medically necessary and urgent. ### What is Covered In-Hospital at a Non-Agreement Private Hospital

### What's Covered

Extras are services usually provided outside of a hospital. Medicare does not generally cover these services, so we help you pay for them.

## Choosing the right hospital

Your *Hospital Plan* table on the previous page will specify if you're covered for 'All hospitals', 'All public and partner private hospitals' or 'Public hospitals only'. This can be found under the plan name in the hospital table.

To ensure you're fully covered for your hospital fees, it's important you're admitted to an appropriate type of hospital. Hospital fees include hospital accommodation, intensive care and theatre fees (less any excess you may be required to pay based on your level of cover).

'All hospitals' means you're covered for eligible treatment at any registered Australian public or private hospital. 'All public and partner private hospitals' means you can be admitted to any public or partner private hospital Australia wide and be fully covered for hospital accommodation and theatre fees for eligible services.

'Partner private hospitals' means if your level of cover provides benefits for partner private hospitals, you can choose to be treated as a private patient in a private hospital contracted with GU Health. These agreements mean that you'll be covered for inpatient accommodation and theatre fees, based on your level of cover.

In the event you're admitted to a private hospital where no agreement exists you'll only receive restricted benefits. This means the amount we pay is a set amount and may not cover the full cost of your stay and you may incur large out-of-pocket costs. On selected plans there will also be a benefit limit of \$300 per person per membership year for in-hospital pharmaceutical drugs so check *Your Plan Information* for more details.

If your cover includes 'Public hospitals only', you'll experience out-of-pocket expenses if you're admitted to a private hospital.

## Waiting periods

A waiting period is the amount of time you and anyone covered under your membership is required to wait before you can first make a claim, or claim a higher benefit for a particular service or treatment on your new level of cover. Waiting periods apply to both hospital and extras cover.

### A waiting period applies when you:

- first join or upgrade your level of cover
- re-join the fund after a break in cover
- reduce your hospital excess.

Please note, the service or treatment received must have occurred after the waiting period has been served, to be eligible for a benefit payment.

Treatment	Waiting period
Psychiatric, rehabilitation and palliative care	2 months
Pregnancy, childbirth and related treatment	12 months
Pre-existing conditions (except psychiatric, rehabilitation and palliative care)	12 months

## Pre-existing conditions

A pre-existing condition is an ailment, illness or condition, the signs or symptoms of which were known or which a medical practitioner appointed by GU Health considers existed at any time up to six months before and on the day you joined us, upgraded or changed your level of cover.

This is regardless of whether you were diagnosed or aware of the pre-existing condition.

*continued over page ▶*

## Restrictions

If your membership has restrictions they'll be marked as ● on *Your Hospital Plan* table. This means GU Health will only pay a minimum (default) benefit for in-hospital treatments. The benefit we pay is the equivalent of the accommodation costs of a shared ward in a public hospital. GU Health won't cover the full cost of a private room in a public hospital or a room in a private hospital. Both can result in significant out-of-pocket expenses.

Depending on your chosen cover, restricted benefits may also apply in instances where you're undergoing treatment that isn't recognised by Medicare, such as elective cosmetic surgery.

## Exclusions

Naturally, there are some things we can't cover. Exclusions are procedures or services that aren't covered under your membership and for which we're unable to pay any benefits. This includes instances where you're undergoing treatment that isn't recognised by Medicare, such as elective cosmetic surgery. If you have exclusions under your cover, they'll be marked as ✗ in *Your Hospital Plan* table.

**Please note, services not recognised by Medicare aren't covered by GU Health, unless they're specifically listed under your cover as an included item.**

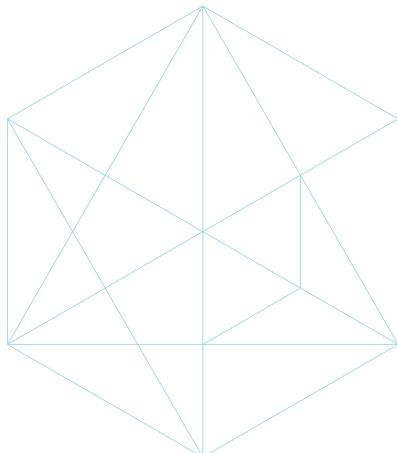

## Ambulance cover

Your hospital cover will include full cover for medically necessary ambulance transport to hospital and on-the-spot treatment provided by or under an arrangement with an approved State or territory ambulance service. Please read ***Your Membership Guidelines*** to find out more.

## Eligibility for overseas visitor cover

You're only eligible to be covered on an overseas visitor cover option if you don't have access to full Medicare entitlements and you're not a resident of Australia. If you're a permanent Australian resident or already have access to full Medicare entitlements – through a spousal visa, interim Medicare card or any other means – please contact your Member Relations Team for information about the cover options available to you.

*continued over page ▶*

## Eligibility for a tax statement

If you're covered under a RHCA plan you can receive a tax statement at the end of the financial year, which can be used to claim any Government Rebate entitlement or apply for exemption from the Medicare Levy Surcharge (MLS) if it applies to you.

If you wish to receive a copy of your tax statement contact your Member Relations Team or you can find a copy of your tax statement in your Online Member Services area at: [guhealth.com.au](http://guhealth.com.au).

If you're covered under a non-RHCA plan, you won't be eligible for a tax statement.

## Australian Government Rebate

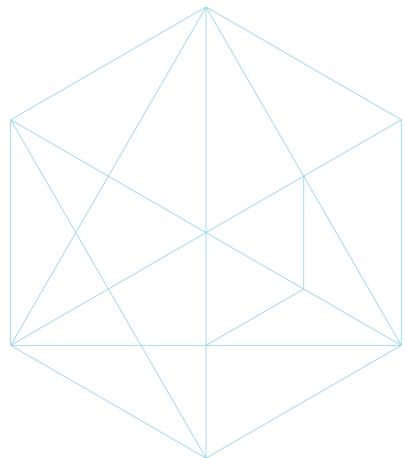

GU Health offers cover options tailored specifically for overseas visitors who are from countries that have a Reciprocal Health Care Agreement (RHCA) with Australia. If you have an appropriate RHCA cover with GU Health and a RHCA Medicare card, you may be able to apply for the Australian Government Rebate on private health insurance.

The level of rebate that you're entitled to claim is based on the age of the oldest person covered under your membership and your household income. Unless an arrangement specific to your corporate health plan has already been set up by your employer, you may claim the rebate as an up-front reduction in your GU Health contributions or as a tax rebate when lodging your tax return.

If you're covered under a non-RHCA plan, you won't be eligible to apply for the rebate.

If the rebate tier nominated under your actual membership doesn't reflect your rebate entitlement, this will be reconciled by the Australian Taxation Office (ATO) as part of your tax return as either a tax debit or credit.

For further details, visit the ATO website at [ato.gov.au](http://ato.gov.au)
